Pursuant to 37 C.F.R. §1.98(a)(2), a copy of each of the above-listed references is enclosed.

### II. NEWLY CITED UNTRANSLATED REFERENCES NOT IN THE ENGLISH LANGUAGE

The following of the references listed on the transmitted Form PTO-1449 is not in the English language and has not to the knowledge of the undersigned attorney been previously submitted to or cited by the United States Patent and Trademark Office.

No English-language translation of the following references is, however, within the custody or confine or is readily available to any individual designated in 37 C.F.R. § 1.56(c).

Accordingly, pursuant to 37 C.F.R. §1.98(a)(2), a copy of the reference is enclosed, and a concise explanation of the understood relevance thereof is also provided below:

German Patent Publication No. 3,724,978 to Hans Imhof. The English abstract

attached as the last page of this reference indicates that the reference discloses a catheter provided with a one-way check valve 2 at the distal end thereof. Check valve 2 is comprised of an elastic material configured as a cylindrical sleeve with one closed hemispherical tip. The opposite end of check valve 2 is secured to the exterior of the distal end of a catheter tube 1. A slit 12 through the hemispherical tip of check valve 2 permits the infusion of fluid from the interior of catheter tube 1 to the exterior of check valve 2.

### III. COMMENT ON THE FORM IN WHICH COPIES OF THE REFERENCES ARE BEING SUBMITTED

In view of the relatively substantial number of references listed above, the actual copies of those references are being submitted in a set of two (2) loose-leaf notebooks.

In the notebooks, the references are numerically tabulated, so that the number of each is the same as the reference number for each on the accompanying form PTO-1449.

Each of the notebooks includes a Table of Contents for the entire set of references.<sup>1</sup>

It is respectfully hoped that the above-described form in which the actual copies of the identified references are submitted will facilitate an efficient evaluation thereof.

In addition, it should be noted that among the references submitted the following are considered by the undersigned to be particularly relevant<sup>2</sup> to the general subject matter disclosed in the above-captioned application:
